Profile

I am a passionate designer currently doing my Interaction Design Master Program in Sweden. Before I came here, I had 4 years bachelor studies of Industrial Design in Dalian, where I learned **sketching, CAID, modeling, product design and furniture design.**

I realized I want to know more about the users and services behind the products, and the functionality inside the products. So I decided to come to Sweden continue Interaction Design Master program right after I graduated. During the studies in Sweden, I mainly working on **research, user-centered design approach** and **prototyping interactive experiences.**

Currently, I am looking for internships in 2010, I would like to contribute my knowledge and skills to you, and widen my experiences of more real life interaction design projects.

Skills & Software

I am a **team-worker**, I like working with people from different disciplines. I had experiences of doing **ethnography research, user testing, game design, sound design, graphic design, interface design, web design, service design, product design** and **experience prototyping.** I also put a lot of effort into **animation, storytelling** and **programming** to improve my visualization skills.

I am frequently work in **Photoshop, Illustrator, Coda, After Effects, Final Cuts, Flash** and **Audacity.**I used to work in **Rhinoceros** and **Cinema4D.** This year I get into **ActionScript 3, Processing, Arduino, HTML, CSS** and **JavaScript,** I am feeling the power of programming and I am putting a lot of effort into it now.

Language

Native **Chinese**, Fluent **English**

Education

2008
MA in Interaction Design
Umea Institute of Design, Umea, Sweden
